

Each set of numbers in each box below is different from the set of numbers in the other three boxes for several different reasons.

1. Study the set of numbers in each box.
2. Try to determine why the set of numbers in box A is different from the set in the other three boxes.
3. On your paper, write the reason why you think it is different.
4. Repeat steps 2 & 3 only this time determine why the set of numbers in box B is different from the set in the other three boxes.
5. Repeat steps 2 & 3 only this time determine why the set of numbers in box C is different from the set in the other three boxes.
6. Repeat steps 2 & 3 only this time determine why the set of numbers in box D is different from the set in the other three boxes.

A.

$$(36 \div 4) \div (6 \div 12)$$

B.

$$[36 \div (12 \div 6)] (4)$$

C.

$$(2 \cdot 3) (24 \div 8)$$

D.

$$(12 \cdot 4) - (36 - 6)$$
